# Soap Integration with other plugins

As requested by our users, we are continuously eager to enhance the integration of Soap with other assets. The files are presently hosted on Google Drive. Please don't hesitate to ask on Discord if you have a specific asset you would like to see supported.
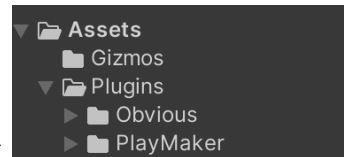

Currently Supported Assets:
- Playmaker : 🅰 Soap-Playmaker

  Place the content of the Unity package in the same root folder as Playmaker.

  Examples: or
- Game Creator 2: 🅰 Soap-GameCreator2
